Hello everyone, I hope you and your family are staying safe and doing well.

Yesterday I sent out an email with a brief outline of the Paycheck Protection Program. I really feel like this is the most important program put in place to help almost every small business owner.

Senator Rubio has a good Frequently Asked Questions for Small Businesses concerning the Paycheck Protection Program document on his website. I encourage EVERY small business owner to review this document. Below is the link.

Please let me know if you have any questions.

Thank you!
